

AQUARIUS™
HOME COMPUTER SYSTEM

**THE AQUARIUS™
SPECTRUM OF CHOICE**

MATTEL ELECTRONICS®

quarius™ is the home computer system for everyone, from the inexperienced beginner to the computer-competent family. Individually, each product brings you an entree into some special vista of advanced technology. Individually, each has a special, clearly defined function. But collectively, products, peripherals and software all share a common simplicity of use. And a marvelous range of applications that can enrich, enliven and enlarge the world you live in. Aquarius™. Simple to use. Special to own. And a full spectrum from which to choose.

AQUARIUS™ COM/PAC: PACKAGED TOGETHER TO PERFORM TOGETHER

Aquarius™ has taken the four products you'll want first and use most, and packaged them together. Here is a compact, yet complete and powerful system for computing, printing, storing and retrieving data. Each product is simple to operate, simple to learn. The concept is affordable. The system is expandable. And the difference is the savings in time and effort, and money, that "getting it all together" can mean.

AQUARIUS™ COMPUTER

Built around a fast, powerful Z80A microprocessor, this compact computer has a 49-moving key keyboard and displays 16 colors with excellent graphic resolution. Built-in Microsoft® BASIC provides out-of-the-box programmability.

AQUARIUS™ MINI EXPANDER

Plugs right into the Aquarius Computer cartridge port. Mini Expanders' double cartridge ports mean you can use software and memory cartridges at the same time. Gameplay is enhanced with two detachable hand controllers and two additional channels of sound.

AQUARIUS™ PRINTER

Prints reproductions of what's on the display screen, both graphics and alpha-numerics. The 40-column format prints on thermal paper at a rate of 80 characters per second. A convenient way to record information or assist in debugging programs.

AQUARIUS™ DATA RECORDER

Connects directly to the back of the Aquarius™ Computer to allow transfer of your programs and data onto regular audio cassette tapes for fast, easy and accessible information storage. Features tape counter and data indicator light for accurate storage and quicker retrieval.

AQUARIUS™ II*

With expanded memory, 20K RAM expandable to 64K, this new Aquarius™ computer features a full travel keyboard and built-in Extended Microsoft® BASIC for advanced programming right out of the box. Vivid display with 16 colors and 320 x 192 graphic resolution. Most importantly, Aquarius™ II is fully compatible with the entire Aquarius line. (Available Fall 1983.)

AQUARIUS™ 4-COLOR PRINTER*

Create colorful print-outs of anything generated by the computer. Select 40 or 80 column format and four interchangeable ink colors for highlighted records and lists, colorful graphics, color-coded charts and graphs. Prints on regular 4½" paper. (Available Fall 1983.)

AQUARIUS™ MEMORY CARTRIDGES

Plug-in cartridges increase Random Access Memory (RAM) storage in 4K or 16K increments.

AQUARIUS™ MASTER EXPANSION MODULE*

A centralized peripheral hosting device that allows neat and efficient expansion of the Aquarius™ Home Computer System with: Aquarius™ Disc Drives and Disc Drive Controller, CP/M† disc operating system, and up to seven different peripheral boards for added memory and more. (Available early 1984.)

AQUARIUS™ MODEM*

Allows you to connect your Aquarius™ to outside subscription information services via standard telephone lines. Specifically, subscribe to the four-tiered Aquarius™ Home Services data base for the latest Aquarius™ news and programming tips, exclusive Aquarius™ Home Services data, and the information and services offered by CompuServe, including the latest world and financial news, weather, in-home shopping, and more! The Modem even lets you send your own messages to other Aquarius™ owners.

AQUARIUS™ HOME COMPUTER SYSTEM COMMAND CONSOLE‡

Program the Command Console‡* with your Aquarius™ Computer to control turning your household appliances, lights, and energy devices "on" and "off" for seven day cycles. Perfect for more efficient energy consumption, home security, and time saving convenience. Programming is executed through a simple graphics approach. (Available Fall 1983.) Comes with 2 BSR modules, batteries not included.

* This product is subject to FCC rules and any shipment and delivery is subject to FCC certification.
